

DermaTwist

Collagen Induction Therapy (CIT) · Pre & Post-Treatment Care

PRE & POST-TREATMENT CARE

PRE-TREATMENT INSTRUCTIONS

DermaTwist delivers Collagen Induction Therapy (CIT) through mechanical microneedling. It is used for acne scarring, fine lines, texture, stretch marks, and scalp/hair restoration.

SKINCARE PREPARATION

- The **Noon Pre-Procedure Program** (or your own gentle fragrance-free prep routine) is recommended 10–14 days prior — not required but optimises outcomes.
- Discontinue **retinoids and AHA/BHA exfoliants** 5–7 days before treatment.
- Do not use any **self-tanner** for 2 weeks prior.
- **Arrive with clean, makeup-free skin** — no creams, serums, SPF, or any product on the treatment area.

SUN & LIFESTYLE

- Avoid **direct sun exposure and tanning beds** for 2 weeks prior.
- Avoid **isotretinoin (Accutane)** within 6 months of treatment.
- No active skin infections or open breakouts on the treatment area.
- Avoid **blood thinners and supplements** (fish oil, vitamin E, aspirin unless prescribed) 5–7 days prior.

DAY OF TREATMENT

- Arrive 30–45 minutes early — **topical anaesthetic** is applied in-clinic and requires time to work.
- **Arrive with clean, makeup-free skin** — no product on the face or scalp.
- For scalp treatments: arrive with clean, dry hair — no oils or styling products.

MEDICAL HISTORY — PLEASE INFORM US IF YOU HAVE:

- Active skin infection, open sores, or rash in the treatment area.
- History of keloid or hypertrophic scarring.
- Pregnancy or breastfeeding.
- Blood clotting disorders or anticoagulant medications.

POST-TREATMENT INSTRUCTIONS

Micro-channels remain open for several hours post-treatment — skin is highly receptive to applied biologics and serums during this window.

Day 0 — Immediately After Treatment

- **Hale Derma Cleanser** (or your own gentle fragrance-free non-foaming cleanser) — used in-clinic at end of treatment.
- **EXOJE Skin Revitalizing Complex** (or your own exosome or growth factor serum) applied into micro-channels immediately post-treatment for maximum absorption.
- **Epicutis Lipid Recovery Mask** (or your own fragrance-free occlusive barrier mask) — zone-appropriate (face or neck) — applied in-clinic.
- **Epicutis Lipid Serum + HYVIA Crème** (or your own fragrance-free hydrating serum and barrier moisturiser) applied before leaving the clinic.
- **Epicutis Hydrobiome Mist** (or your own fragrance-free hydrating mist) for cooling and microbiome support.

Days 1–2

- Cleanse gently with **Hale Derma Cleanser** (or your own gentle fragrance-free non-foaming cleanser).
- Apply **Epicutis Lipid Serum + HYVIA Crème** (or your own fragrance-free hydrating serum and barrier moisturiser) 2× daily.
- Continue **Epicutis Hydrobiome Mist** (or your own fragrance-free mist) for comfort.

DermaTwist

Collagen Induction Therapy (CIT) · Pre & Post-Treatment Care

PRE & POST-TREATMENT CARE

- Apply **broad-spectrum SPF 50+** every morning.
- No makeup for **24–48 hours**.
- No retinoids, AHAs, BHAs, or vitamin C.

Days 2–5

- May reintroduce gentle Noon products: **Noon Igloo Moist** (or your own lightweight fragrance-free hydrating cream), **Halo-Ronic Serum** (or your own hyaluronic acid serum).
- Continue SPF daily.

Week 2+

- Return to your full Noon concern-appropriate protocol.
- Next DermaTwist session: **4 weeks** after this treatment.

For Scalp / Hair Restoration (DermaTwist Scalp)

- **DE|RIVE Scalp Treatment** (or your own scalp exosome or growth factor serum) applied post-needling into the scalp — maximum absorption window.
- **KeraFactor Growth Factor Serum** (or your own growth factor hair serum) applied and massaged in.
- **Avari Purasomes** (or your own premium exosome serum) as a premium upgrade for enhanced hair follicle stimulation.
- Avoid washing the scalp for **24 hours** after treatment.
- No heat styling for **48 hours**.
- No chemical treatments (colour, relaxers) for **2 weeks**.

GENERAL RULES

- Avoid heat — saunas, hot yoga, steam — for **48–72 hours**.
- No swimming in chlorinated water for **5 days**.
- Sleep on a clean pillowcase for the first 3 nights.
- Avoid vigorous exercise for **24–48 hours**.
- Call us immediately if you develop significant swelling, unusual crusting, or signs of infection.

DermaTwist sessions are spaced **4 weeks apart**. Contact us anytime at aesthetics@treasuryhealth.ca
