

OxyGeneo

3-in-1 Super Facial · Pre & Post-Treatment Care

PRE & POST-TREATMENT CARE

PRE-TREATMENT INSTRUCTIONS

OxyGeneo is a no-downtime 3-in-1 super facial combining OxyPod effervescence, ultrasound infusion, and optional TriPollar RF. Suitable for all skin types with minimal preparation.

SKINCARE PREPARATION

- No special preparation required for most patients — this is the most accessible treatment in our stack.
- If you have **sensitive skin**: discontinue retinoids and AHA/BHA products 2–3 days prior.
- **Arrive with clean, makeup-free skin** — no creams, serums, SPF, or any product on the face.

DAY OF TREATMENT

- No topical anaesthetic required — OxyGeneo is comfortable for all patients.
- Sessions are typically 45–60 minutes.
- Safe to combine with LED TriWave on the same day (LED applied after OxyGeneo).

WHO IS THIS IDEAL FOR?

- First-time patients and those new to medical aesthetics.
- Prejuvenation (under 35) — glow, hydration, and skin quality maintenance.
- Patients looking for a no-downtime option between energy device sessions.
- All Fitzpatrick types including IV–VI.

POST-TREATMENT INSTRUCTIONS

OxyGeneo requires minimal aftercare. Your skin may appear slightly flushed for 1–2 hours — this is normal and resolves quickly.

Day 0 — Immediately After Treatment

- **Hale Derma Cleanser** (*or your own gentle fragrance-free non-foaming cleanser*) — used in-clinic at end of treatment.
- **Noon Halo-Ronic Serum** (*or your own hyaluronic acid serum*) applied to lock in hydration and amplify OxyGeneo benefits.
- Follow with your **Noon concern-appropriate moisturiser** (*or your own fragrance-free moisturiser*).
- **Broad-spectrum SPF 50+** applied before leaving the clinic if going outdoors.

Same Day / Evening

- You may resume your **full skincare routine the same evening**.
- Skin is primed for enhanced absorption — ideal time to apply Noon concern serums.
- Slight pinkness resolves within 1–2 hours.

Ongoing

- No activity restrictions — OxyGeneo has zero downtime.
- The **Noon Accelerate Kit** (*or your own concern-appropriate active skincare*) is recommended at checkout after each visit to extend results.
- For best results, space sessions **3–4 weeks apart**.

OxyGeneo sessions are spaced **3–4 weeks apart** and can be combined with most other treatments. Contact us anytime at aesthetics@treasuryhealth.ca
